
Energizer Lithium 9V Battery - Non Rechargeable

Product price:

C\$23.73

Product short description:

Stay powered up with the Energizer Lithium 9V Battery. This non-rechargeable battery is packed with 600mAh of power, manufactured by the reliable and highly-regarded Energizer brand.

Designed with Lithium chemistry, it is an efficient replacement for most 9V batteries and provides a long shelf life. Despite being lightweight, this battery boasts exceptional longevity and is assigned to Class 9 in accordance with UN Recommendations on the transport of dangerous goods – Model Regulations.

The Energizer 9V Lithium Battery is a reliable power source, especially for high-powered devices. Its size is consistent with standard 9V batteries, making it a versatile choice for numerous applications.

Key Specifications:

- Size: 9 Volt
- Chemistry: Lithium
- Voltage: 9 Volt
- Brand: Energizer
- Included Qty: 1

Features:

- No memory effect
 - Long-Lasting Performance
-

Product features:

Our Part Number: L522

Description: Canadian Batteries supplies high quality, Energizer Lithium Ion 9v Batteries - Non Rechargeable

-
- Minimal self-discharge
 - Cost-effective compared to Alkaline batteries
 - Can be used in any product that uses 9 Volt Batteries

This high-density Energizer lithium battery is specifically designed for high-drain applications, ensuring you have a reliable power source when you need it most. It is perfect for specialist applications that require a 9V battery.

For every additional battery you add to your purchase, discount pricing will be applied as per the rates shown in the table above. For larger orders exceeding 200 pieces, further discounts can be applied but please contact us directly to avail these rates. We offer great deals for bulk orders on this battery.

Stay powered up and get your Energizer Lithium 9V Battery today!
