**Description:-** This battery is a 18650 cell shrink wrapper with a thermister and 3 wires and a plug. Ideal for those small projects that require a 2600Mah 3.7V power source.

We have a number of these cells that are just over 1 year old. We are offering them for project purposes or to those of you that require an economical 18650 solution. As they are over the 1 year period although they are probably perfectly fine we are selling them at a knockdown price. Ideal for those who have the knowledge to disassemble and reuse the cells contained within.
