Introducing the Rayovac D size 813FT one-use battery, your go-to power source for all your high-drain devices. With a flat top design and an alkaline cell chemistry, this battery is engineered to deliver reliable and long-lasting power.
```

The 813FT has a nominal voltage of 1.5 volts and an approximate weight of 5.0 ounces (144 grams), making it a convenient and portable option for all your power needs. The battery's dimensions are in accordance with the IEC standard, and its approximate volume is 3.4 cubic inches (55.7 cc).

Designed to operate in a wide range of temperatures, the 813FT can function in conditions ranging from -30°C to 55°C (-20°F to 130°F). The battery's terminals are made of flat, nickel-plated steel, ensuring a reliable connection and consistent power delivery.

Product features:

Our Part Number: 813FT
Description: Canadian Batteries supplies high quality, Duracell D Procell Alkaline Batteries Model Pc1300 - Non Rechargeable

The Rayovac 813FT's plastic film shell adds an extra layer of protection, ensuring that the battery remains safe and reliable throughout its lifespan. Plus, with no mercury added to its formulation, the 813FT meets the Environmental Protection Agency (EPA) requirements for landfill disposal, making it an environmentally friendly choice.

Trust Rayovac to provide you with the power you need, when you need it. The 813FT D-size battery is the perfect solution for all your high-drain devices, delivering reliable and long-lasting power that you can depend on.

The minimum purchase for this product is 105 pieces of 813FT. There are 105 batteries in total in a full case.

Specifications:

- **Battery Size:** D
- **Battery Chemistry:** Alkaline (Manganese Dioxide)
- **Nominal Voltage:** 1.5V
- **Operating Temperature Range:** -30 C to 55 C (-20 F to 130 F)
- **Dimensions:**
 - *Length* - 2.421" (50 mm)
 - *Diameter* - 1.346" (34.2 mm)
- **Weight:** 144.0 g (5.1 oz)
